### COMPLETE SETS OF APPARATUS.

Daguerreotype or Calotype apparatuses, replete  
with double achromatic lenses, and every requi-  
site for Views, Portraits, Miniatures, &c., &c.,  
beautifully made of Walnut-tree wood, and  
packed in two Wainscot boxes, with locks and  
keys, the whole of which is French polished, and  
forms a most complete Cabinet for the Art, each  
apparatus fitted up for two sizes of Pictures, as  
under, but can have frames for smaller sizes, if  
desired.

If with  
Voigtlander's  
lenses instead  
of Lerebour's.

No. 1 is for Pictures

\* This double achromatic has an aperture of 3 inches, and 3 inch focus, but is only adapted to portraiture. It is 4 times quicker in operating than any lens before made in any country.

† This apparatus has a single achromatic lens, and variable diaphragms, and being of short focus, is very quick, though less sharp in detail than the double chromatic.

‡ This has 3 achromatic lenses, which enable the operator to shorten or lengthen the focus as required.

Lerebour's single achromatic lenses, unmounted,  $1\frac{1}{2}$  inch over, 3 inches focus

Ditto, mounted with wheel of diaphragms	£0 10
